ALL OPERATIONAL DIFFICULTIES

If this timer does not function properly for any reason, please replace battery with a new, high-quality battery (see Battery Replacement section). Low battery power can occasionally cause any number of "apparent" operational difficulties. Replacing battery with a fresh new battery will solve most difficulties.

BATTERY REPLACEMENT

An incorrect display, no display or operational difficulties indicate that the battery should be replaced. Slide open the battery cover on the back of the timer. Insert a new AAA alkaline battery. Make certain to note the proper polarity as indicated by the diagram in the battery compartment. Replace the battery cover.
