# **OVERVIEW & ACCOUNT SET UP**

# MAIN SCREEN INTERFACE OVERVIEW (MOBILE) FIG. 1 Devices 2 +

#### MAIN MENU DESCRIPTION (MOBILE ONLY)

- 1. Menu button, to view, see Fig. 2.
- 2. To add a new device, Fig. 3 (mobile) or Fig. 12 (web).

#### FIG. 2

- 3. Username.
- 4. View all active devices.
- 5. See which devices in account are not active.
- 6. Functions for Bluetooth units, see TraceableGO section, page 12
- 7. View locations associated with account, see Locations, page 6.
- 8. View users associated with your account, see Users, page 8-9.
- 9. Monitoring Reports, see Reports, page 10-11.
- 10. View app version information.
- 11. Logout, tap to sign out of the app.

#### NEW ACCOUNT SETUP

- 1. Visit <u>www.traceablelive.com.</u> Click "New Account" button.
- 2. Enter account information. Any fields with an (\*) are required fields and must be completed to proceed.
- 3. Click "Register" button.
- 4. Create or log in to account.

#### SYMBOLS

- Percentage WiFi signal strength
- Low battery
- High alarm
- Low alarm
- Alarm acknowledgment
- S Lost connectivity
- Connectivity restored
- Disconnected or damaged probe
- Settings changed
- Event comment button filled
- Device check event

### ADD A DEVICE (MOBILE)

#### FIG. 3

- 1. Tap the "+" icon to add a device from Devices page.
- 2. Press QR code icon.
- Permission must be given to TraceableLIVE app to access your mobile device's camera.
- Using your mobile device's camera, scan QR code on back of unit (see right).
- 5. App will automatically fill in device information.
- 6. Tap add device.

3

# ADD A DEVICE VIEW DEVICE DATA

### ALARM SETTINGS/LOGGING INTERVAL

#### FIG. 4

- 1. Select location(s) from dropdown menu.
- 2. Channel Alias, each sensor may be labeled.
- 3. Alarm Settings, tap on each value to set High and Low alarms.
- 4. Set Logging Interval from dropdown menu.
- 5. When applicable, set Altitude.
- 6. Select time zone.
- 7. Tap Save to save settings.

### **VIEWING DEVICES (MOBILE)**

#### FIG. 5

#### TAP ON MENU ICON, SEE FIG. 2, THEN TAP ON DEVICES.

- 1. Tap to add more devices.
- 2. Device Name (tap to view device see Fig. 5-9).
- 3. Device Serial Number
- 4. Device Channels
- 5. Current device readings (green indicates readings are within alarm parameters; red indicates an alarm condition).

#### TO DEACTIVATE A DEVICE

- 1. On main screen, tap on devices.
- 2. Select Device to be deactivated.
- 3. Tap on Settings, see Fig. 6, #11.
- 4. Tap Edit button.
- 5. Tap Deactivate, and confirm you wish to make that change.

**Note:** Deactivated devices will be moved to Inactive Device menu and you will not be charged for device any longer if you have a Basic or Premium subscription. Deactivated devices cannot post new data.

#### TO REACTIVATE A DEVICE

- 1. Tap on Inactive Devices.
- 2. Select Device to be reactivated.
- 3. Tap on Settings, see Fig. 6, #11.
- 4. Tap Activate button.

**Note:** Reactivated devices will be moved to Device menu and you will be charged if you have a Basic or Premium subscription.

### **VIEWING DEVICE DATA (MOBILE)**

Start by tapping on a device from device list, under Devices menu, select the channel you wish to view, see **Fig. 6**, **#2**.

#### FIG. 6 GRAPH VIEW

- 1. Device name.
- 2. Indicates current channel readings (green indicates readings are within alarm parameters; red indicates an alarm condition).
- 3. Tap to scroll through a device's channels. If "- "" appears, probe has been disconnected or damaged, or is out of range.
- Unit of time. Tap time period (on mobile) or click (web) to select period to view. When time is blue; it is selected, when gray, it is not selected.
- 5. Graph illustrating data readings over time.
- 6. WiFi signal strength.

### **VIEW DEVICE DATA -MOBILE (continued)**

- 7. Battery status.
- 8. Graph Panel View.
- 9. History Panel View, see Fig. 6, #9.
- 10. Summary Panel View, see Fig. 6, #10.
- 11. Settings Panel View, see Fig. 6, #11.
- 12. Generate a Report, see page 10.

#### FIG. 7 HISTORY VIEW

- 1. Device name.
- 2. Indicates Event History interface is being viewed.
- 3. Settings Changed event.
- 4. Indicates which channel an event or setting change occurred.
- 5. Setting change information or alarm threshold information.
- 6. Event Comment button (user may leave a comment about an event).
- 7. Date and time when unit regained connectivity.
- 8. Connection Lost Event.
- 9. Device check event including date/time of check and reading at time of check.
- 10. A solid gray clipboard indicates no comment has been added.
- 11. Reports section; see Reports page 10.

- 1. View locations associated with your account.
- 2. Current locations on your account.
- 3. Tap to delete a location.
- 4. Tap to ADD a new location.
- 5. View account settings, view your profile, or sign out.

#### TO ADD A NEW LOCATION (ADMIN ONLY)

- 1. Select Locations, Fig. 15, #11 (web) or Fig. 2, #7 (mobile).
- 2. Click "+" and complete form.
- 3. Click "Add Location" to complete.

**Note:** An administrator may add a new location at any time from the Location/All Locations menu.

**Note:** After creating a new location, user preferences must be updated to access/view the new location.

#### TO EDIT LOCATION (ADMIN ONLY)

- 1. Click Locations, Fig. 15, #2 (web) or Fig. 2, #7 (mobile).
- 2. Select location you would like to edit from menu.
- 3. Current location information will display.
- 4. Click "Edit" to change the information, make changes.
- 5. Then click Save.

# **EDIT DEVICE SETTINGS/ADMIN & USERS**

**Note:** It may take up to 30 minutes for location change to update across all interfaces.

#### TO REMOVE LOCATION (ADMIN ONLY)

- 1. Click Locations in main menu, Fig. 15, #3 (web), Fig. 2, #7 (mobile).
- 2. Select location you would like to delete from menu.
- 3. Click "Trash bin icon" to remove.

4. Follow prompt, if you are sure, click ok.

#### TO EDIT DEVICE SETTINGS

- 1. Click Devices in main menu.
- 2. Select device to be edited.
- 3. Select Settings icon, see Fig. 16, #1.
- 4. Select Edit.
- 5. Make your edits, and select Update, see Fig. 16, #2.

#### ACCOUNT USER MENU

- 1. Designated role
- 2. User name
- 3. User email
- 4. User phone number
- 5. Alerts. Note: Alert method availability depends on service agreement.

- 6. Change password.
- 7. Add user/update user.

**Note:** Under each user: e-mail, password, phone, locations, desired alert method, and unit of measure, are ALL editable.

#### TO ADD A USER (ADMIN ONLY)

- 1. Select Menu button.
- 2. Click on Admin & Users, Fig. 2, #8.
- 3. Select "+" Fig. 19, #7.
- 4. Enter user settings, then click "Add".
- TO VIEW USER PROFILE
- 1. Select Menu button.
- 2. Click on Users, Fig. 2, #8.
- 3. Select a User.

#### TO EDIT A USER

- 1. Select Menu button.
- 2. From Users menu, Fig. 2, #8. Select a user you wish to edit (admin) or click on your name to edit.
- 3. Click on user to edit, Fig. 19, #5.
- 4. Change desired information.
- 5. Click "Save".

#### TO REMOVE A USER (ADMIN ONLY)

- 1. Select Menu button.
- 2. From Users Panel, Fig. 2, #8. Select user to delete.
- 3. Click trash icon Fig. 19, #5.
- 4. Then click Delete at the bottom of page.

### TO SWITCH UNIT OF MEASURE

- 1. Select Menu button.
- 2. From Users menu, Fig. 2, #8, click user to edit, Fig. 19, #5.
- 3. Select unit of measure.
- 4. Click "Save."

**Note:** Switching unit of measure on mobile or web, will NOT change unit of measure displayed on device.

8 Generate Report

- 1. Location name (select from list of available locations)
- 2. Device name (select from list of devices)
- 3. Date range (time period desired to run report)
- 4. For a custom range, set a start/end date range.
- 5. Report Format, select what file type is desired. Choose from either PDF, CSV, VFC or secured PDF (creates password protected file)
- 6. Drop down menu displaying the four types of data summaries. Click to select; a green check should appear.
- 7. E-mail(s) to which you wish to send report.
- 8. Generate report button.

**Note:** When selecting types of data, select as many or as few report types as you wish. To send reports to multiple e-mail addresses, separate e-mail addresses by semicolon.

### **MONITORING REPORTS**

#### TO GENERATE REPORT (MOBILE)

- Option 1: See Fig. 6, #12: tap any panel in the Devices section on
   I to get to Reports. Complete form and tap, "Generate Report"

   Fig. 22, #8.
- 2. Option 2: See Fig. 12, #4, tap on Reports. Complete form and tap, "Generate Report" Fig. 22, #8.

#### TO GENERATE REPORT (WEB)

- Option 1: Select Menu button, click on Locations. Select device, Fig. 12. Then on any of the four device views click on to get to Reports section. Complete form and click on "Send".
- 2. Option 2: Select Menu button, Click on Reports, Fig. 2, #9. Complete form and click on "Send".

### **REPORTS** (continued)

- 1. Report title for serial number of product.
- 2. Report requested by username.
- 3. Date/time of report generation.
- 4. Report date/time range.
- 5. Device description and location information.
- 6. Current device settings.
- 7. Overall summary of device data and statistics.
- 8. Device data graph (shows data in line graph format).
- 9. Alarm event history (shows time/date and duration of every Alarm out and Alarm event).
- 10. Data device detail (shows detailed dated reading information).

### **BLUETOOTH DEVICES**

#### ADD A TRACEABLEGO DEVICE TO TRACEABLELIVE ACCOUNT

- Set up TraceableLIVE account at traceablelive.com
- Edit Account settings to include TraceableGO, see Fig. 18, #7.
- Download TraceableLIVE mobile app.

#### FIG. 24 BLUETOOTH MENU OPTIONS

## 1. Tap BT Config and Upload to add a TraceableGO Bluetooth device. **NOTE:** Bluetooth must be enabled on your mobile device.

- 2. On your TraceableGO device, double-tap Start/Stop button to enable the Bluetooth transmitter.
- 3. Any TraceableGO device in range and with their bluetooth transmitter enabled will appear under In Range Devices.

#### FIG. 25

4. Tap on your device to download data or configure device.

### SEE TRACEABLEGO INSTRUCTIONS FOR MORE INFORMATION.
